

# Why Homoeopathy is Good for My Children

A lot of parents choose Homeopathy for their children, because they care for their loved ones

**Homeopathy is Safe:** Essentially, any medicine administered to children must be free from harmful effects. Homoeopathic remedies are prepared mainly from *herbs, vegetable kingdom, minerals* and are given in very minute doses so that they are *100% non-toxic*, having no adverse effects whatsoever. Unlike antibiotics and other such medicine, homoeopathic pills do not hamper digestion; do not lower resistance power; do not produce allergy and do not harm even if taken for long-term.

## Homeopathy: the choice of caring Parents

**Homeopathy is Effective & Quick Treatment:** It is every homoeopath's observation that children, being more sensitive, respond quicker to homoeopathy. *Homeopathy is effective for practically all sorts of complaints occurring in children.* Contrary to the general misbelieve, homoeopathy is quick acting & brings back the healthy state in the quickest possible manner; be it fever, cough-cold, diarrhea, asthma, etc.

**Homeopathy is a Natural healing art:** Homoeopathy is based on Nature's principle of cure, namely Like Cures Like (The Law of Similars). The efficiency of homoeopathy can be scientifically checked and positive results can be reproduced over again.

**Homeopathy builds Body Resistance:** Children often have recurring infection due to lowered resistance power. Homoeopathic treatment, being based on the 'Constitutional Approach', treats the disease at the root level, hence enhancing the children's defense power. As a result, the child does not fall sick frequently.

**Homeopathy is Child Friendly:** Homoeopathy pills being sweet in taste, is accepted with pleasure by children. They are never bitter and kids do not make fuss while taking homoeopathic remedies. It is so easy to take that even one day old neonates can be administered treatment without forcefully inducing in them, saving them from lot of weeping, crying and inconvenience. Homoeopathic therapy is superior to traditional treatment of administering medicine through injections. No injectables are required while you are on homoeopathy. Even a comatose child may be administered with homoeopathic remedies without injections, that is the beauty of this science.
